Picture Hanging System  
**KOREDER LINE**

**Picture Rail**

Surface-mounted and built-in rails for walls and ceilings are available in various sizes and shapes. If required, they can be spray-painted in any desired colour for each room.

**Hook**

The Hooks are available in two types, being the 'open hook' and the 'one-touch hook' with which the cable is pressed into the hook at the bottom and fixed by an ingenious patented system.

**Hanger Set**

The choice for the correct hanger set is determined by design and weight of, for example, the picture (8,25 or 50 kg). There is also a hanger set with built-in alarm.

**Wire**

The weight of the work of art also determines the diameter of the wire. Additionally, this unique and safe system is available with coloured wires, making them almost invisible.

**Previous projects**

Rijksmuseum Amsterdam, Royal Museums of fine Art Brussels, town hall Hof van Twente, The Old Town Hall The Hague, Rabobank Borne, Prado Museum Madrid, Alicante Art Museum, National Museum of Modern Art Kyoto, town hall of Borne.

**Koreder Line System**

As European importer of this flexible and unique hanging system, Innosell offers you the possibility to hang works of art in a responsible and visually very beautiful way from now on.

**Also customer-specific**

Apart from the very extensive programme, Innosell also offers the possibility for customer-specific solutions with respect to, for example, fixing the rails. The Koreder Line system is, among other things, applied in museums, public buildings, banks and offices.

**Reliable and flexible**

The high quality level, the extensive quality tests and the built-in securities make the Koreder Line system a very safe system that is available in any required colour. The pictures can easily and quickly be hung at the correct height or be changed, which is time-saving.

**Mounting**

The rails are directly or through consoles screwed on the wall or ceiling. If required, Innosell can also take care of the mounting.

**Free catalogue**

- I would like to receive the free catalogue "Koreder Line Picture Hanging System".
